## THE E. INGRAHAM COMPANY

All Buildings of Modern Brick Construction Ventilated by Blower System and Well Lighted and Heated

CASE DEPARTMENT (Length 424 Feet)

PARTIAL VIEW OF PLANT FROM REAR (Plant Comprises 30 Buildings, Including the Shipping, Receiving and Fire Departments.)

## PACKING AND PACKING CHARGES

## WATCHES

Watches are packed in individual pasteboard boxes, twelve watches in a sealed carton.

## ALARM CLOCKS

An additional charge of two cents per clock, with a minimum charge of ten cents and a maximum charge of twenty-five cents per box, is made for packing Alarm Clocks in less than case lots.

## EIGHT-DAY CLOCKS

College Assortment packed three in a box. All other Mahogany Finished, Mahogany and Black Enameled Mantel Clocks and Office Clocks packed singly. All Kitchen and Semi-Cabinet Clocks packed six in a box. Where clocks are regularly packed six in a box, an additional charge of ten cents per box is made for boxing singly.

## IMPRINTING AND LETTERING

Dials of Viceroy and Panther Watches will be imprinted in 1,000 lots and larger quantities, and the name Viceroy or Panther will be omitted, if required. Dials of other watches will be imprinted only in 1,000 lots and larger quantities and name of watch will not be omitted. Alarm clock dials bear name and brand of manufacturer and will not be otherwise imprinted. Lower glass of Office Clocks will be printed with customer's name and address in lots of six without charge. A charge of twenty cents each will be made for lettering in smaller quantities.

## SHIPPING WEIGHTS

For the convenience of buyers we have tabulated below the approximate weights of our watches and clocks when packed for shipment.

### WATCHES

Three dozen in a carton	7 lbs.	Two gross in a wooden box	65 lbs.
One gross in a carton	28 "	504 Watches in a wooden box	105 "

## ALARM CLOCKS IN CASE LOTS

Ace90 lbs.	Dryad45 lbs.	Liberty65 lbs.	Rotator90 lbs.
Admiral 80 "	Diamond 90 "	Merrimac80 "	Sentry85 "
Autocrat65 "	Ideal90 "	Premier85 "	Victory80 "
Cinch70 "	Indian65 "	Rattler 65 "	

## EIGHT-DAY CLOCKS

Six Mahogany Finished, Mahogany or Black Enameled Mantel Clocks weigh approximately one hundred pounds. The College Assortment (three in a box) weighs twenty-five pounds per box. Kitchen and Semi-Cabinet Clocks (six in a box) weigh seventy to seventy-five pounds per box. Small Office Clocks weigh ten to twenty pounds each. Large Office Clocks weigh twenty to thirty-five pounds each.

## FITTINGS FOR KITCHEN AND CABINET CLOCKS

Kitchen Clocks may be fitted as follows:

Gongs, 75 cents each additional list. Alarms, 75 cents each additional list. Calendars, 75 cents each additional list. Drop Brackets and Levels, 60 cents each additional list.

Thermometers and Barometers, \$1.50 each per pair additional list.

Both Alarms and Calendars cannot be fitted to the same clock. All Calendar Clocks have Roman dials. All Kitchen Clocks are packed six in a box and fitted three Roman and three Arabic dials unless otherwise specified. All Kitchen Clocks finished in oak. The Lake Line and Itasca Hanging Clocks will be furnished in walnut finish, if so ordered, in twenty-five case lots.

## Guarantee

INGRAHAM Watches and Clocks are thoroughly tested and carefully inspected and we Guarantee that they will run and keep good time for at least one year, if not subjected to misuse or abuse. Any failing to do so will be repaired or replaced (at our option) without charge. We do not, however, guarantee our Watches or Clocks against misuse or abuse, nor do we guarantee cases against ordinary wear. When repairs or replacements are required due to such causes a moderate charge is made therefor.

The E. Ingraham Company

## DISPLAY STANDS FOR INGRAHAM WATCHES

(Illustration One-half Actual Size)

Each, \$3.57

JEWEL AND PILOT EMBOSSED BACK Composition Gilt Metal in color and texture is an excellent imitation of gold. Being the same texture throughout, these cases do not wear off and change color as do plated cases.

COMPASS IN CROWN

JEWEL SAME AS PILOT WITHOUT COMPASS

Solid Composition Gilt Metal Case. Embossed Back. 14 Size. Thin Model. Antique Pendant. Each, \$2.63

## Unique, Distinctive and Superior Features Which Mark the Most Advanced Step in Alarm Clock Development

Patented and Applied Only to

## INGRAHAM ALARM CLOCKS

Fig. 1. Patent "Stem Shut-off." The most convenient, practical and positive alarm shut-off ever put on a clock.

Fig. 2. Concentrically arranged bell located entirely within the case between the dial and the movement. The case is divided into two compartments by a dust cap located between the bell and movement; the forward compartment contains the bell and is perforated to let out the sound, the other is perfectly tight and dust-proof and contains the movement. Autocrat, Rotator and Premier are constructed in this manner.

A bell arranged in this manner has many advantages over placing it on top of case, or at the back. Being wholly within the case, it cannot be muffled by coming in contact with any foreign object, nor can it be displaced or thrown out of adjustment, as frequently happens when the bell is on top or back of case.

As the diameter of the bell is practically that of the interior of the case, it is in consequence much larger and noisier than any other bell on the market.

Fig. 3. Cup bell located within the case between the bottom edges of the movement plate and the case, and housing the balance wheel, thus protecting a vital part of the movement. This arrangement secures the same advantages over the outside bell as referred to in Fig. 2 with a lower cost of construction. Indian, Cinch, X-Ray, Admiral, Merrimac and Dryad are constructed in this manner.

Fig. 4. Winding Key. This key may be turned down for convenience in packing, but it is so formed that when raised to winding position the tension holds it upright (see arrow). The advantage of such a key over the ordinary turn-down key, which drops down each time the operator lets go to take a new hold, will be appreciated.

Ingraham Alarm Clocks are made of the best material obtainable and constructed on scientific principles by the best methods and workmanship.

Every clock is thoroughly tested before it leaves the factory and is warranted a first-class timekeeper. The alarm adjustment will be found practically perfect, and the alarm may be relied upon to "go off" at the time set.

ONE-DAY ALARM CLOCKS

All cuts are one-half actual size of clocks

### INDIAN

Height, 6 inches. Nickeled and Polished. Bell Inside Case. Stem Shut-off. Case lots (50 clocks), each, \$2.05
